Coolness. Separates the Man from the Boys

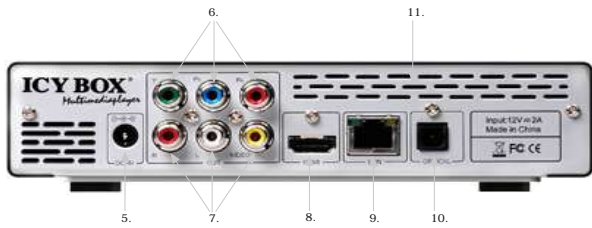

We don't have to talk about its video formats or containers, about HDMI, DTS or Dolby Digital in this product class. There is anything you might wish. What separates the network-HDD-multi-media player ICY BOX IB-MP3011 from the bulk is its coolness. It is so cool, it doesn't need a fan. As it dissipates the process warmth of the IC and the HDD to the outside employing the metal case which is built like a heat exchanger. Movie or music, the ICY BOX IB-MP3011 plays it cooler than the boys.
