the PowerCube Remote

Put an end to standby power usage of home appliances with the PowerCube | Remote |.

vertical

horizontal

upside down

Use the "Sticky-Pad" on the remote to attach it anywhere within reach.

one remote controls multiple PowerCubes

one PowerCube controlled by multiple remotes

The unique "Step-On" button on the PowerRemote can be pressed by foot in case both hands are occupied.

"Sticky-Pad"

- attach to any surface wherever it is easy to find and reach, so you will never lose it
- clean with wet napkin for reuse

Battery-free remote

## PowerCube | Remote |

Having set a different standard for extension cords, many people have asked us why we do not have an ON/OFF switch on the PowerCube to cut standby power usage. Simply because we do not find it user-friendly. Existing remote-controlled power sockets on the market do not offer a convenient solution, as the remote may be lost.

Our creation is the PowerCube | Remote |, which takes user-friendliness to a whole new standard. With one big "Step-On" button on the PowerRemote you can turn ON/OFF the PowerCube from a distance using either your hands or feet. The reusable "Sticky-Pad" on the remote can be used to attach it wherever it is easy to find and reach, so you will never lose it. Furthermore, the modular design concept allows the PowerRemote to pair with multiple PowerCubes, and vice versa, to customize it to your needs. And surprisingly... the PowerRemote does NOT USE BATTERIES because Allocacoc cares about our environment.

technical specifications		Type A	Type B	Type E
Voltage; Ampere	125/230-250V~; 10-16A			
Outlets	4			
Cable length	1.5m			
Mounting dock	included			
Cable fix	included			
Available socket types	Type A, B, E, F, G, I			
Socket color	Trolley Grey
